2011 Maple Valley Raiders Cheerleading Rules

Maple Valley Junior cheerleading program goals are to balance the competitive aspect of championships with a fun learning atmosphere. Cheerleaders will learn team work and leadership skills as well as instill confidence. Each girl will learn the basics of cheerleading including side line cheers, chants and stunts. When preparing for cheer championships we will learn more intense cheers, stunts and dances, while still having fun.

SPSJFL Cheer Championships is our end of the season competition with the other eight franchises in the South Puget Sound League. (Puyallup, Sumner, Enumclaw, Auburn, Benson, Kent, Swac and Federal Way) Each Year we look forward to Cheer Championships. It provides us a great opportunity to show case what we have learned throughout the season. All cheerleaders who wish to participate will perform as one big team in a dance, cheer and stunt routine. Judged by, Washington State Cheer Judges Association. *If you choose not to participate in championships, practice goes from 3 days a week to 1 day a week in October, and you will not be eligible for Varsity or Jr. Varsity the following year.*

Attendance

In order for us to have a quality cheer program and to support all of our members we ask that all cheerleaders commit to the program. Practices are usually 4-5 times a week in August, practices will be 3 times a week in September and possibly 3-4 times a week October–November as we gear up for championships. These practices will also be just for those girls participating in championships. Games are usually Saturdays and some Sundays except for during football playoffs and championships you may be required to cheer both days. It is important that cheerleaders understand the responsibility and commit to the program in order to participate.

If a cheerleader is not well enough to practice, they should stay home and rest. It is important to get well! Please DO NOT send your child if they are not well enough to practice.

Absences are excused for emergencies or illness and a parent note must be given, unexcused absences include shopping, the fair, skating parties etc.

Once you have signed the Cheer Championship Participation contract, and we have started “championship practices” you are only allowed 3 absences. Once we place you in your formation and stunting group it is hard to practice if you’re not available to participate.

Cheerleaders cannot participate until they have completed their warm up routine at the field. If you arrive late, you may have to wait until half time to join in with the rest of the squad.
2. If a cheerleader shows up to a game without COMPLETE uniform (crop, socks, briefs, poms, and rain jacket if needed) she will be asked to sit out.
3. Each cheerleader will cheer with their designated squad and game time.
4. In order to keep the uniform clean during game days please do not allow your cheerleader to eat or drink in their uniform. If you will be staying to watch other games please have your cheerleader change into street clothes to prevent the uniform from being damaged.
5. With courtesy and respect to the opposing cheerleaders; our cheer squads are not allowed to call the same cheer that the other team just performed. Cheerleaders also will not be allowed to call a cheer while the other team is in the middle of cheering. If this happens stop immediately and return to ready position. If there is a problem with the opposing team calling cheers during ours, the coach will handle this
6. When a football player is down on the field due to an injury, ALL CHEERLEADERS will stop cheering immediately and kneel with one knee on the ground until the player has stood up or left the field. All cheerleaders will clap and chant "Give that boy a hand" until he leaves the field.
7. At half time the cheerleaders will perform a cheer for the opposing team and go through a hand shake line. The opposing team will perform a cheer for our squad as well. Cheerleaders will have the remainder of the half to use the restroom and get a quick snack. Make sure to cover your uniform with a jacket or such not to get food on your uniform. It is the responsibility of the cheerleader to keep the eye on the game clock and be back on the field in ready position by the start of the second half.
8. Parent participation during games. Many of our cheers call for audience participation and nothing thrills the girls more than to see their parents, friends etc. do the cheers with them. It is instant feedback that they are doing their job. So please don't disappoint get in there and cheer.
9. In order to wear optional clothing items (sweatshirts, Warm ups) during games all athletes will need to have the same items. We do this to maintain the proper cheer image and spirit.
10. We do our best to accommodate team requests, please note that our main focus is to make sure the teams are equal in size and a variety of ages. Siblings of football players will receive priority placement on their siblings coordinating cheer teams. With one exception the Varsity cheer team will be the only cheerleaders cheering for the Pee Wee football team.

Volunteer Opportunities

1. In order to grow the program we need Volunteers at each home game and special events. At all home games help is needed in the concession stand and on the field. All positions except Set up (Varsity) clean up (Bantams) volunteers will work the game before your cheerleaders. This is done so that you may be able to watch your cheerleader during their game. We ask that you arrive 15 minutes prior to the game of your assigned team.

Varsity game time 9:00	Volunteer Arrival time 8:00 to set up
Midgets' game time 10:45	Volunteer Arrival time 8:45

INHERENT RISKS OF CHEERLEADING

Cheerleading is a sport and with any sport there is risk of injury. Cheerleading is an anaerobic/aerobic activity that includes jumping, stunting, motions and tumbling. All physicals must be on file in the school before the student can participate in the sport, practices or games. Coaches should be informed of any injury or chronic conditions.

Although the probability of injury is minimized if you practice correctly, there is always the possibility of one occurring. Injuries that can occur in cheerleading include but are not limited to the following: blisters, muscle strains, ligament sprains, joint and muscle soreness, abrasions, contusions, stress fractures, broken bones, spinal cord injuries involving paralysis and even death. However, if you take certain precautions, the possibility of such injuries may be largely decreased. Be sure to abide by the following:

1. Never stunt or tumble unless a coach is present.
2. Always practice in the presence of a qualified coach.
3. Always warm-up appropriately before cheering (practice and games) by jogging and stretching.
4. Do not attempt a stunt that you do not know how to perform safely and that has not been cleared by the coach.
5. Always use attentive spotters when stunting.
6. Always use mats or a grassy area when stunting during practice.
7. Always cheer in an area free from obstructions.
8. Do not stunt on uneven ground, wet surfaces, and concrete. Do not stunt in cold or rainy weather.
9. Never talk, laugh, or mess around when performing a stunt or learning a stunt.
10. Report injuries to the coach as soon as they occur.
11. Follow all trainer and doctor recommendations.
12. Lift weights to increase strength and guard against injuries.
13. Always wear shoes and clothing appropriate for cheerleading.
14. Never wear jewelry of any kind or chew gum when cheering including practices and games.
15. Always have your hair pulled back from your face and shoulders/
16. Eat nutritious meals and get plenty of rest.
17. Always ask for assistance or advice at any time.
18. Do not stunt or tumble when game is in process.
19. Never show off.
20. Take all activities seriously.
21. Do not participate in cheerleading if you are sick.

I have read the preceding warning. I thoroughly appreciate and understand the assumption of risks inherent in cheerleading participation. I acknowledge that I am physically fit and voluntarily participating in the activity of cheerleading.

MOTIONS

Remember:

- 1) All moves should be preformed sharp. Imagine hitting a brick wall that is behind you.
- 2) Wrists should not be cocked, but in a straight line with your arms. Thumbs should be on the outside of your fists, with your pinky fingers in back. Show your swirlies!
- 3) Although you want to hit a brick wall, your arms should not be way behind you. You should be able to just barely see them out of the corner of your eyes when looking straight ahead.
- 4) Shoulders should be relaxed for every motion, not up at your ears.
- 5) Shortest distance- rather than swinging your arms around, up into your High V, bring your arms straight forward in front of yourself and hit. This is true for any motion.
- 6) Practice in front of a mirror. You may feel like you're doing the moves correctly, but you may not be.

The following are the basic motions of cheerleading:

Ready Position

Hands behind back, feet shoulder width apart.

Lunge

Just look at the legs and body position. Left leg is bent at a 90 degree angle. The right leg is completely straight. Body and right knee are facing forward.

High V

Arms are at a 45 degree angle to the body. Pinky fingers are to the back.

Low V

Same as a High V, but arms are down.

T

Arms are at a 90 degree angle to the body. Pinky fingers are to the back.

Broken T

Same as a T, but arms are bent. Do not bring it forward. Pinky fingers are to the front.

Touch Down

Arms are straight up, in-line with the body. Bring arms to ears, not ears to arms. Pinky fingers are to the front.

Low Touch Down

Arms is straight down, in-line with the body. Arms should be tight to the body and slightly forward. Pinky fingers are to the back.

Daggers

Arms are bent, hugging the body. Pinky fingers are to the front.

The above moves can be combined to create several motions. The following are just a few examples of this:

Right L

Right arm is in a T and left arm is in a Touch Down. Left L would be the opposite of this.

Right Punch

Right arm is in a Touch Down and left arm is on hips. Left Punch would be the opposite of this.

Left Diagonal

Left arm is in a High V and right arm is in a Low V. Right Diagonal would be the opposite of this.

Left K

Left arm is in a High V and right arm is in a Low V across the body. Right K would be the opposite of this.

JUMPS

Stretches

- 1) Do crunches- the stronger your tummy is, the higher you can lift your legs. This is especially important for pikes.
- 2) Try doing this exercise before you do your toe touches. Sit on the ground in a straddle position. Not too wide or else it will hurt. Also, be sure that you sit up straight, don't slouch. Place your left hand in front of you and your right behind you. Lift your right leg up off the ground and turn your leg so that your knee is pointing backward. Switch hands and do the same on your left leg. Start easy on yourself, doing 2 sets of five on each leg. Slowly work up to doing more. I've found that this is the best exercise for improving toe touches.
- 3) Increase the strength in your legs so that you can jump higher. One way to do this is run up and down stairs. Now that's a good work out!
- 4) Place a piece of tape as high up as you can reach on a wall in your house. Jump up 100 times and touch the place on the wall above the tape. Do this 50 times with the right hand and 50 times with the left hand.
- 5) Practice- they can only get better! Try doing three jumps in a row with no prep in between: jump, land, jump, land, jump, land.

How To Jump

- 1) Start with your feet together and arms by your side. Count 5, 6, 7, 8. On 1, 2 clasp your hands.
- 2) Count 3, 4 On 3 hit a high V, on 4 hold it there.
- 3) On count 5, 6 swing your arms around in front of you so that they cross at your knees. 7 At the same time bend at the knees.
- 4) On count 8 jumps up and hit your jump.
- 5) On count 1 whip your legs back together, landing with your knees bent and arms by your side. Hold this position for count 2.

Types of Jumps

Spread Eagle

Body is in an X with arms in a High V. Legs go out as far as they can without lifting the knees up to the sky. Knees should face forward.

Toe Touch

Arms are in a T. Legs rotate and the knees point to the sky. Eventually knees should point back, behind the jumper. While it is called a toe touch, do not reach for your toes. Keep a straight back and sit into the jump.

Left Side Hurdler

Left leg is in toe touch position. Right leg is bent with knee facing forward. Right Side Hurdler would be the opposite of this.

Right Front Hurdler

Right leg is straight, in front of the face. Left leg is bent with knee pointing down. Let your leg come to you. Don't go to it. Left Front Hurdler would be the opposite of this.

Left Herkie

Left leg is in toe touch position. Right leg is bent with knee facing down. Right Herkie would be the opposite of this.

Pencil

Jump straight up.

Tuck

Jump straight up and tuck knees to body
